Victor®

Tin Cat®
Poly Cat
Repeating Mouse Traps

The World's Leader in Poison-Free® Pest Control

New

M408

Poly Cat - Same Great Features and Performance as Tin Cat Plus:

- Won't rust—high impact polymer construction
- Ideal for exterior use and damp environments
- Removable insect bait wells
- Lockable/secure, see-through lid

M312
Solid Lid Tin Cat

M308
Clear Lid Tin Cat

Features/Benefits

- No wind up required
- Fits where other traps won't—only 1.75 inches high
- Lid opens lengthwise for easier service
- Tabs in floor to secure M309 Glue Trap
- Entry housings can be removed for thorough cleaning
- Reduced alleyway beside housing to eliminate hiding place for mice
- Holds up to 30 mice
- Use as insect/rodent monitor with M309 Glue Trap
- Test holes in entry housing to check catch mechanism
- Clear lid M308 easier and quicker to inspect than solid top models
- May be used in FDA and USDA inspected plants
- Service record label packed inside each trap

Victor®

Tin Cat/Poly Cat Mouse and Insect Glue Trap:

M309

Features/Benefits
- No poisons to harm children or pets
- Prebaited with peanut butter scent
- Can be tented for protection in dusty areas
- Can be used inside or outside of Tin Cat/Poly Cat as a standard glue trap

When Used in Tin Cat/Poly Cat:
- Industrial strength insect monitor and mousetrap in one
- Fast inspection / reduced service time
- Quick and easy trap maintenance and cleaning
- Containment of biohazards (rodent hairs, feces and ectoparasites)
