SCENT DIFFUSER

THE MAGIC OF SCENT MADE SIMPLE

SCENT DIFFUSER

S150

Scent is an important emotional influencer, and in addition to fragrancing an environment as a solution to mask unpleasant smells and odours, nowadays it is common to experience fragrance as a user 'experience' in a location. Organisations are realising the powerful ability of our sense of smell, and using the magic of scent to deeply connect with our emotions. Smell can evoke memories and lasting impressions, which stimulate emotions and trigger certain behaviours. The true magic and effect of scent is only just being discovered.

The SensaMist™ S150 scent diffuser is a smart looking fragrance solution, which creates a fragrant atmosphere for small areas. The SensaMist™ diffuser utilizes advanced atomizer technology to create a fine mist of fragrance which is then diffused into the environment.

With the SensaMist™ brand you will find solutions to all of your scenting needs, with a range of dispensers to suit any environment or application.

Magic Scent Solutions

Product Information

Specification

Operation: DC 12v

Power: 6w

Coverage: up to 200 m³ (7,062 ft³)

Noise: Less than 50 dB

Product size: 328mm x 74 (Base 113) (H x D) mm

Bottle: 100ml (3.5fl oz)

Installation: Table top

Control: Programmable touch screen

Product Code: GDIS-S150-S
