

THE NEXT INNOVATION IN BED BUG DETECTION

- Discreet design that fits into any room or setting
- Clear bottom allows for quick and easy inspection
- Maintenance free, designed to prevent dust formation
- Serves as a cornerstone of a recurring revenue business model

The SenSci Volcano™ measures 3x3x1 inches.

When SenSci Volcano is used together with SenSci Activ, a lure developed by Rutgers University, the combination creates a highly-effective and easy-to-use bed bug monitor that effortlessly blends into the environment.
