

## Multi-Phasing Non-Aerosol Air Freshener Refills

### PRODUCT INFORMATION

- 
**Sub-micron technology,** V-Air® SOLID+ particles enable superior fragrance delivery, yet are sized typically below 1.0 micron. This means they are much smaller and lighter than the particles in other fragrance systems, remaining airborne for many hours.
- 
**Multi-phasing,** The V-Air® SOLID+ unique outer capsule is infused with high quality perfumes, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different.
- 
**Just three parts,** The technology behind V-Air® SOLID+ is packed into one powerful refill component, so we've done the hard work for you – no fuss, just fragrance.
- 
**No liquids. No leaks,** V-Air® SOLID+ contains no liquids so won't spill or leak, even if it's knocked over.
- 
**Multi-phasing fragrances,** V-Air® SOLID+ refills are part of the "Harmonize Your World" programme – providing matching fragrances across different aircare systems.
