

GERMO INODORE

Medical Surgical Equipment

Disinfectant, detergent, polyvalent, bactericidal and fungicidal which guarantees an absolute hygiene of environments and surfaces.

It prevents fermentation and development of unpleasant odours.

The combining action of two active agents (Alchil Benzil Oleil Ammonium Chloride and Orthophenylphenol) neutralizes the action of Viruses, Fungi and Bacteria Gram+ and Gram-, Listeria and Mycobacterium tuberculosis.

Germo Inodore is the ideal product for the sanitization of: refrigerating rooms, canteens, warehouses, industries and food industries (slaughterhouses, factory farms, salami and cheese factories) and in general any room or facility needing hygiene and disinfection.
