

The Original.

The Ever Popular.

The Family Range Of Dispensers.

Vectair Systems provide all your aircare needs, with the original, complete & co-ordinated Family Range of cutting edge dispensers & a suited range of harmonized aircare systems.

INNOVATORS IN HYGIENE

Classic styling.

Multi-award winning performance.

Our Family Range offers durable dispensers that are, proven to last and perform in a range of environments with a stylish and contemporary look. Included in our Family Range is cutting edge air care science such as the multi-award winning sub-micron air freshener technology and synchronized scents through differing passive systems in our 'Harmonize Your World' range.

Who we are.

Vectair Systems are a leading technological innovator, manufacturer and supplier of air care and hygiene products in a number of sectors worldwide.

Vectair Systems operates in over 120 countries worldwide through a series of distribution partners. In the United Kingdom, we have a strategically positioned European Head Office ensuring that we are near a major port for our "by sea" distribution needs and within a short distance of all major London airports for our "by air" distribution needs for both UK and Export partners.

Our North American Headquarters and Distribution Center is located in Memphis, TN allowing us to deliver to all parts of The Americas and Canada.

Expertise & support.

As well as being dispenser manufacturers, we also provide our own range of air freshener refills and other consumables such as passive air care solutions that are part of the Harmonize Your World range. Through our expertise and support, we are an ideal partner for both your dispensing and consumable needs.

Stand out from the rest

with our private branding system.

Dispenser branding

Vectair offer private branding opportunities on the front of each of the family range dispensers.

PRODUCT SUMMARIES

V-Air® SOLID+ Continuous Air Freshener For Large Spaces.

V-Air® SOLID PLUS utilizes pioneering multi-phasing air freshener technology to provide continuous fragrance to large spaces up to 500m³ in size.

Airoma® & Micro Airoma® Automatic Air Freshener Dispenser

Airoma® & Micro Airoma® are automatic fragrance dispensers designed to ensure facilities smell fresh and clean whenever a fragrance is required. They automatically deliver small bursts of fragrance at specific intervals in order to keep bad odours at bay.

V-Air® SOLID Multi-Phasing Passive Fragrance Dispenser

The award winning V-Air® SOLID utilises pioneering multi-phasing, sub-micron air freshener technology through a passive dispenser and solid fragrance cartridge.

Quadrasan® Urinal/ WC Cleaning & Dosing System

Quadrasan® is a cleaning and dosing system that provides continuous programmable maintenance ensuring toilet and urinal fixtures remain clean and odour free.

Prozone® Automatic Ozone Generator

Prozone® is an automatic ozone generator and odour neutraliser designed to eliminate unpleasant smells and kill up to 99.5% of airborne viruses in a variety of locations.

Sanitex® Soap Dispensers

The Sanitex® Soap Dispenser, through its sleek design and 'push to dispense' system, is a unique soap dispenser offering optimal hand hygiene. Hands stay hygienic and clean long after washing.

Safeseat® Surface Cleaning Dispenser & Refill

Even seemingly clean surfaces can harbour vast numbers of harmful bacteria. Easy to use Safeseat® Surface Cleaner provides the individual with the opportunity to clean surfaces such as toilet seats effectively before and after use.

V-Air® SOLID+ Continuous Air Freshener For Large Spaces.

- V-Air® SOLID+ utilizes pioneering multi-phasing air freshener technology to provide continuous fragrance to large spaces up to 500m³ in size.
- Through a solid fragrance cartridge, a unique outer capsule and inner fragrance core, high quality fragrances are released via the V-Air® SOLID+ dispenser, delivering consistent fragrance intensity.
- Small and light particles which are less than 1.0 micron, meaning they linger longer and stay airborne for many hours.
- Dispenser is programmable for your convenience with the choice of low / medium / high output options, hours of operation, days of operation and start time. This allows the user to set the right atmosphere at the right time – enhancing interior environments in the process.
- As the aircare dispenser is mains powered, V-Air® SOLID+ doesn't rely on batteries either.

V-Air® SOLID+ Multi-phasing Fragrance Cartridges

- Easily replaceable and safe to handle solid cartridge refill.
- V-Air® SOLID PLUS cartridges contain no liquids, removing the risk of spillages or leaks.
- Fragrance particles below 1 micron allow for superior fragrance delivery.
- Up to 30 days of continuous fragrance coverage.
- Refill cartridge consists of unique outer capsule and inner fragrance core.
- Refills are effective in room sizes up to 500m³.
- Bespoke fragrances can be created to match customers specific needs. (subject to MOQ's)
- An indulgent collection of fragrances, from fruity citrus to fresh bergamot, are available with the end user in mind.

Versatile systems

V-Air® SOLID+ is extremely user friendly and adaptable, able to work both as a fixed unit or portable aircare system.

Harmonize Your World

Co-ordinated scents across different aircare systems.

Complementary Fragrance Solutions

Change the way you fragrance a room through Vectair odour control systems, providing co-ordinated scents, consistently to a variety of locations. It's time to avoid that fragrance clash.

V-Air® SOLID Multi-Phasing Passive Fragrance Dispenser

The multi-award winning V-Air® SOLID dispenser is an air freshener like no other. It provides up to 60 days fragrance.

- Uses sub-micron fragrance technology delivering fragrance particles typically below 1.0 micron (<1.0µm) which enables fragrance particles to remain in the air for many hours.
- Contains no batteries or no propellants.
- Made up of just three parts.
- Different fragrances are used in the fragrance core and in the unique outer capsule of the refill allowing for multi-phasing fragrance delivery for up to 60 days.

Dispenser	Part #
V-Air® SOLID Dispenser	VAIR - W

V-Air® SOLID Multi-Phasing Passive Fragrance Refills

The V-Air® SOLID unique outer capsule is infused with high quality perfumes, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different.

- V-Air® SOLID contains no liquids so won't spill or leak, even if it is knocked over.
- One Vectair V-Air® SOLID refill provides up to 60 days fragrance.
- Part of the 'Harmonize Your World' range of products – synchronized scents across differing aircare products, removing the fragrance clash in interior environments with 6 fresh fragrances; Apple Orchard, Citrus Mango, Cool Mint, Cucumber Melon, Ocean Spray and R (contains citronella).

Prozone® Automatic Ozone Generator

Prozone® is an automatic ozone generator and odour neutraliser designed to eliminate unpleasant smells and kill up to 99.5% of airborne viruses in a variety of locations.

The ozone produced by Prozone® destroys harmful micro-organisms with which it comes into contact with and breaks down odour causing compounds – therefore neutralising the unpleasant smells they produce.

Prozone® automatic ozone generator has been approved by TÜV SÜD to the standard BS / EN60335 parts 1 and 2. This model is the first ever ozone generator to achieve this standard.

- Incorporates ceramic chip corona discharge technology to uniquely produce ozone from oxygen.
- Destroys harmful micro-organisms and neutralizes bad odours and smells.
- It is suitable for either portable or fixed locations.
- Quick and easy to clean with a simple and speedy installation too.

Dispenser	Part #
Prozone® Programmable	PROZ-WP
Prozone® Non-Programmable	PROZ-WNP
Prozone® Plate	PROZPLAT
Prozone® Fan	PROZFANA MK3

Prozone is approved by TÜV SÜD?

The first ever ozone generator to achieve this standard. Ultimately, this demonstrates Prozone® as a product that can not only clean the air around us effectively, but that is also completely safe to users.

Quadrasan® Urinal/ WC Cleaning & Dosing System

Quadrasan® provides a dose of fragranced or unfragranced cleaning chemical at programmable intervals throughout the day to ensure urinals and toilets stay fresh, sanitized and smell great.

- Fully programmable dispensers allowing you a choice of a number of refills per year; 6, 8, or 12 hour operation; choice of start and end times; days off selection feature; choice of days of operation (5, 6, or 7). Weekend On/Off option is also available.
- Provides a patented "I.P.E.™" facility enabling users to program a period per day of enhanced fragrance delivery and a patented automatic reset button is available when a dosing refill is replaced.
- Dispensers are available in a white or chrome finish.
- Cleans and inhibits build up of uric acid salts. Ideal for all commercial washrooms and toilet areas. Particularly suitable for high footfall areas.

Dispenser	Colour	Part #
Quadrasan®	White	FDIS - W
Quadrasan®	Chrome	FDIS - C

Continuous, programmable maintenance.

Quadrasan® is a cleaning and dosing system that provides continuous and programmable maintenance, ensuring toilet and urinal fixtures remain clean, sanitized and odour free.

Quadrasan® Urinal/ WC Cleaning & Dosing System Refills

Quadrasan® refills are available in biological and chemical formats, available without fragrance or with a choice of effective and fresh fragrances with 3000 metered doses per refill.

- Urinal fixtures remain clean, maintained and odour free - cleaning and deodorizing takes place at source, protecting urinals and toilets between cleaning intervals.
- Inhibits build-up of uric acid salts and limescale.
- Refills will work effectively in most similar, competing dispensers.
